DPS 24 Block Diagram: Surround Pan of Mono-Channel's

OS Version 2.0   April, 2006 (c) Simon Jenni, Switzerland   NO WARRANTY, use on your own risk

For paired (stereo) channels, the Pan Front-Back, Divergence, LFE Route and LFE Send Level controls are linked.
Divergence and LFE Route controls are stored in mix scenes, but cannot be dynamically automated.

In SOLO-Mode:
Mute all Channels
not in SOLO
